Judicious and creative when developing websites, apps and platforms to propel competitive advantage and revenue growth. technically proficient and analytical problem solver with and focused demeanor

PROJECTS

[Mentimeter website - clone](#) |

.This is a learning website where teacher and user can interact through warrior's way like raise poll, contest, ppt etc., I have tried our best to make a fully-functional clone of a website that provides a minimal user experience where users get the doubt solve and learn so many things,

Features:

- Social Sign-in/Sign-up
- Home Page
- Navbar
- User authentication
- All Product Pages
- User receive random otp's at the time of login
- Sorting-High to Low / Low to High
- Add to Cart
- Add quantity or Reduce quantity

Tech Stack: HTML | CSS | JavaScript | Fetch API |

Areas of responsibility:

- Built authentication and integrated it with the frontend.
- Developed All product pages
- Apply Sorting Functionality

A collaborative project built by a team of 5 executed in 6 days.

[Hometo-go-clone](#) |

Our Team Project for Construct week. This is traveling driven website, It's work Basically on booking hotels and resorts. Me and My team have tried to clone it As much as similar to real website.

Features:

- Social Sign-in/Sign-up
- Home Page
- Navbar
- User authentication
- All Product Pages
- User receive random otp's at the time of login
- Sorting-High to Low / Low to High
- Add to Cart
- Add quantity or Reduce quantity

Areas of responsibility:

- Built authentication and integrated it with the frontend.
- Developed All product pages
- Apply Sorting Functionality

A collaborative project built by a team of 5 executed in 6 days.

Tech Stack: HTML | CSS | JavaScript |

[LysT website -clone](#) |

I have tried my best to make a fully-functional clone of an E-commerce website.

I tried to add all the functionality which should be available on an E-commerce website.

Tech Stack: HTML | CSS | JavaScript | Fetch API |
